REPORT
OF THE
TRUSTEES,
OF THE
NESMITH LIBRARY
FOR 1876-7.

STATEMENT OF ACCOUNTS.

Money in hands of the trustees, March, 1876,	\$9 00	
Received from town as interest on fund,	60 00	
for expenses in procuring books and binding,	4 20	
from fines,	7 09	
from Joseph French for books burnt,	7 44	
		887 73
Paid Lockwood, Brooks & Co. for books,	\$77 75	
Expenses in procuring books,	3 20	
For binding a volume,	1 00	
Money in hands of the trustees,	5 78	
		887 73
Number of volumes in library at commencement of the year,	2003	
Number at the present time,	2067	
Number taken from the library during the year,	64814	

To the Inhabitants of Windham :

The Trustees of the Nesmith Library, in presenting their sixth annual report, are able to say that it is in good condition, well cared for by the librarian, and increasing in value and patronage. Six hundred and sixty six more volumes were taken from the library the past year, than the year previous.

Two books were presented, one each respectively, by Messrs. G. W. Armstrong, and J. C. Park, of Boston, for which thanks are presented. Also one was received from Washington, D. C. and three from Philadelphia, that are gratefully acknowledged.

The loss of six books by fire in the hands of Mr. Joseph French while boarding with Mr. Joseph Clark, has been voluntarily and honorably sustained by him in paying the estimated value of them in money ; and the same books have been replaced, and they are now in the library.

It is the endeavor of the trustees to make the best possible additions to the library with the limited amount of funds in their hands for the purpose ; but many valuable books that are desirable for such a library must be excluded from want of funds. We would therefore renewedly recommend an occasional appropriation by the town of a small amount at least to supplement the annual interest of the fund.

The usefulness of such a library, especially in a quiet town like our own cannot be overestimated. It fills up many a vacant hour with useful reading, and conduces to the intelligence, contentment and happiness of home. Let us therefore ever cherish with gratitude the name of the founder of our library, improve it wisely, and add to its value, as we may be able.

CHARLES PACKARD,
HIRAM S. REYNOLDS,
JOHN L. HARDY,
JOHN H. DINSMORE,
WILLIAM C. HARRISS,

BOARD OF TRUSTEES.

Windham, March, 1, 1877.

SCHOOL REPORT.

The School Committee of Windham present the following report of the schools for the year 1876-7.

DISTRICT NO. 1.

The Summer and Winter terms of this school were taught by Miss. Addie M. Greely of Londonderry. Also a private school was taught by her in this district in the fall. Her former success in teaching this school has been followed by a similar result in the successive terms of this year. Miss. G's influence in winning the respect and confidence of her scholars, has rendered the government of the school easy; while her efforts to advance them in their studies have, for the same reason, secured their cooperation. The result has been what might be expected—good order, interest and progress. The general deportment of the school, and the scholarly manner in which they have pursued their studies, as well as the success of their efforts, reflect credit on them as well as on their teacher.

DISTRICT NO. 2.

The teacher of the Summer term of this school was Miss. Carrie H. West of Winchester, Mass. Miss. W. brought some experience to this school, having taught two terms previously. The school appeared well as to order and general improvement; but a greater measure of interest both on the part of teacher and scholars, would have better satisfied the committee. Had the teacher put forth more energy and evinced more zeal in her work, her success would have been more marked than it was. A small number of scholars, it is true, renders the exercise of such a spirit more difficult; but all the more credit is due a teacher, when every such discouragement is overcome by the interest taken in the work itself.

The Fall and Winter terms of this school were taught by Miss. Susie Clark of Lynn, Mass. Though this is Miss. C's first experience in teaching, she soon exhibited an interest in her scholars and work, that won their favor and insured success. The number of scholars during the winter term has been considerably larger than either of the previous terms; and the interest they have evinced, and the steady improvement they have made in their studies during the terms taught by Miss. C. have been gratifying to the committee. Thoroughness of instruction, and a genial way of imparting it, have characterized the teacher's efforts. The order has also been good.

DISTRICT NO. 3.

The teacher of both the Summer and Winter terms of this school was Miss. Alice D. Morse of Derry. This school under Miss. M's instruction, has come forward finely, in order, and in the several branches of study pursued in it. Her patient and persevering endeavors, resulting from a manifest interest in her work, and a desire to do her duty, have not been without fruit. Both terms have been a decided success.

DISTRICT NO. 4.

This school has had three terms during the year. The first was taught by Miss. Emma F. Gilcreast of Londonderry, the same who taught the school in 1874. The same tact, earnestness and success of former terms appeared in this. The District would have been glad to retain her services for another term.

The second term was taught by Miss. Florence E. Boyd of Londonderry. A school sometimes suffers from a change of teachers, but no injury seemed to arise from a change in this case. Miss. B. soon proved her efficiency as a teacher by the interest she awakened in her scholars, not only in herself, but in their studies, good order and progress were the result. The District would also have gladly retained Miss. B's services for the next term; but in her case as in Miss. G's circumstances prevented.

Miss. Lucy W. Perkins of Londonderry, was the teacher of the third term. The energy and thoroughness evinced by this teacher in her efforts, and a corresponding interest on the part of the scholars, soon established the fact that the District were not to suffer by the second change. Her success was fully equal to that of her predecessors; and as a whole, the District have reason to congratulate themselves on obtaining so good a trio of teachers in one year.

DISTRICT NO. 5.

Miss. Clara B. Browne of Northwood, was the teacher of the Summer and Fall terms of this school. She had the same disadvantage to encounter that some other teachers of our schools have had viz. a small number of scholars; but she labored earnestly and successfully notwithstanding. The scholars evinced a commendable deportment, and at the examination showed that they had made good improvement.

DISTRICT NO. 6.

Both terms of this school were taught by Miss. Mabel Stevens of Center Harbor. The advantage of a thorough training in teaching, such as is afforded at the Normal School, appeared in this, as in some other schools in town. This appeared in Miss. Stevens' method of instruction, and in her general management of the school. Her zeal in the work, amounting to almost enthusiasm; her original and simple manner of illustrating and explaining important points, so as to interest her scholars, and set into operation their own mental powers, and stimulate them to effort; and her endeavor to be thorough in everything, contributed largely to her success. Some classes especially have made marked improvement, and the school generally appeared well. The Committee regard her as one of our best teachers for the year. The order of the school was good.

DISTRICT NO. 7.

The school in this district, which has but one term for the year, was taught by Miss. S. Lucy Proctor of this town. the number of scholars, although still small, was nearly double of that of last year. This was Miss. P's first experience in teaching; but her interest and faithfulness in her work, were crowned with success. The close of the term furnished evidence of a good term of school.

GENERAL REMARKS.

From the facts now presented, as well as from the statistical table, it appears that general prosperity has attended our schools the past year. No material change has been made in any of the school houses, though some things are needed. The improvement suggested last year in the school room of No. 2 has not yet been made, but the Committee are glad to be assured that it will be before long. The blackboards as they are, are scarcely fit for use.

We would also renew the recommendation to District No. 3 to make some improvement in the general condition of their school house. It greatly needs some repair and painting.

Though but one of the fifteen terms of school the past year, was taught by a resident of our own town, in contrast with the previous year, yet we are furnishing other towns with teachers, and it is hoped that parents will continue to encourage their sons and daughters to qualify themselves for this, as well as other professions.

We cannot evince too deep an interest in our schools by extending to teachers our cordial sympathy, encouraging them in their work, overlooking peculiarities of manner, if essentially successful, visiting the schools, and confirming the confidence of the scholars in their teachers by giving them our influence. We should most earnestly cooperate with them also, in all reasonable endeavors to elevate the character of the schools, by securing as far as possible, prompt and punctual attendance of scholars; supplying the school

room with facilities for instruction, such as a small globe, an unabridged Dictionary of the English language, and every needed text book ; and providing liberally for the support of schools. The town has done well in providing so good school rooms, and some are well furnished in ways already suggested. All should be.

The Committee would call the attention of the town to the bearing of the new apportionment of the State tax on raising school money by the towns. As the apportionment of the State tax is now lessened in smaller towns, by increasing it in the larger towns and cities, and as this apportionment is the basis for raising school money, the amount of school money required to be raised by law, in a town like our own, is lessened. It is hoped that the town will appropriate an amount at least to supply this deficit, and not allow the schools to suffer from this change in the apportionment.

It should be remembered that all we do for schools is an investment that yields a large increase in benefiting the rising generations. Our children and children's children will be what we make them by the influences we bring to bear upon them.

It is the glory of an American citizen that he is enlightened as to his rights, and is free to improve and enjoy them. Let the same rich legacy we have received from our fathers be transmitted to future generations by a vigilant, zealous and liberal support of what keep the people from relapsing into ignorance, superstition and oppression—our public schools.

The following is a list of the scholars who have been perfect in attendance, so far as reported.

DISTRICT NO. 3.

Winter term.

Charles W. Rowell.

Summer and Winter terms.

Nellie M. Alexander. Annie G. Bodwell.

DISTRICT NO. 4.

Fall term.
